ABOUT ME

PHP Developer with 4+ years of experience building scalable web applications, eCommerce platforms, and API-driven solutions using Laravel, Shopify, WordPress, Wix Velo, and Webflow. Experienced in backend development, third party API integrations, payment gateway implementations, automation workflows, and database management. Proven ability to deliver secure, high-performance, and user-friendly applications that improve business operations and customer experience.

WORK EXPERIENCE

ARON WEB SOLUTIONS PVT LTD

PHP Developer ————— May 2022 -Present

- Developed and maintained dynamic web applications and eCommerce platforms using Laravel, Shopify, WordPress, Wix, and Webflow.
- Designed and implemented custom backend solutions, APIs, payment integrations, and automation workflows.
- Collaborated with clients, designers, and development teams to gather requirements and deliver projects successfully.
- Optimized application performance, enhanced security, and ensured scalable architecture.
- Managed database design, deployment, troubleshooting, and ongoing maintenance.

Projects:

Tourism Booking & E-commerce Platform | Laravel | Stripe | MySQL | <https://activeco-travel-booking.vercel.app/>

- Developed tour booking and reservation modules using Laravel.
- Implemented customer registration, login, and profile management.
- Built calendar-based booking functionality with date and time slot selection.
- Integrated Stripe payment gateway for secure online transactions.
- Optimized backend performance and database operations.

Shopify Product Automation Platform | Laravel | Shopify API | MySQL | <https://basecamp-studio.com/>

- Developed a custom automation platform for Shopify product synchronization.
- Integrated Shopify and S&S Activewear APIs.
- Automated product creation, updates, pricing, images, and inventory management.
- Built an admin panel for product management and import automation.
- Reduced manual catalog management through automated workflows.

AI Skin Analysis & E-commerce Automation Platform | Laravel | Shopify API | Perfect Corp API | <https://prettiai.com/>

- Integrated AI-powered skin analysis using Perfect Corp API.
- Generated personalized skincare recommendations.
- Automated Shopify and Rakuten product synchronization.
- Implemented TikTok product feed integration.
- Developed backend workflows to improve data accuracy and automation.

Custom Shipping & Logistics Integration | Wix Velo | Box Now API | GLS API | <http://skillab-opatija.com/>

- Developed custom checkout and shipping workflows.
- Integrated Box Now and GLS APIs for shipment automation.
- Implemented dynamic shipping provider selection.
- Automated delivery requests and fulfillment processes.

Multi-Step Application Form Integration | Laravel | Wix | Stripe | <https://energieausweise-graf.de/verbrauchsausweis>

- Developed a custom multi-step application form using Laravel.
- Integrated with Wix websites.
- Implemented conditional logic and dynamic workflows.
- Integrated Stripe payments and backend validation.

Custom WordPress CMS Website | <https://donnangroup.com/>

- Developed custom WordPress websites from scratch.
- Created Custom Post Types (CPTs) and dynamic content structures.
- Built reusable templates and custom functionality using PHP and JavaScript.
- Improved website performance and responsiveness.

Webflow Automotive Platform | Webflow | API Integration | AJAX | <https://www.gofast-fr.eu/>

- Integrated third-party APIs to retrieve vehicle brands, models, and engine data.
- Automated Webflow CMS collection management.
- Developed AJAX-based real-time vehicle information loading.
- Integrated Calendly appointment booking.
- Built data synchronization workflows for accurate automotive data.
