## Professional Summary

I'm a Full Stack Developer with around 2.5 years of hands-on experience working on web and e-commerce projects. I've worked with PHP frameworks like **Laravel** and **Yii**, and built custom solutions on platforms like **Wordpress** and **CS-Cart**. I enjoy working on both the frontend and backend—building clean user interfaces, connecting APIs, and managing databases. I'm comfortable with version control tools like Git and always aim to write code that's clean, efficient, and easy to maintain.

## Organizational Experience

### Esteplogic It Solutions, March 2024 – Present

- Built and maintained custom **e-commerce websites** using **Laravel** and **CS-Cart**, tailored to specific client needs.
- Integrated multiple **shipping** and **payment gateways**, streamlining the order and checkout process.
- Developed custom **APIs** to handle order syncing and data exchange with third-party platforms like **Faire**.
- Worked with **Amazon AWS S3** to implement secure image upload functionality, allowing clients to store and manage product/media files efficiently.
- Enhanced backend performance and optimized API workflows for faster, more reliable operations.
- Collaborated closely with UI/UX teams to deliver responsive, user-friendly storefronts and admin panels.

### The Brihaspati Infotech Pvt Ltd, September 2023 – February 2024

- Worked on a custom HRM system using **Yii Framework** and integrated features with **Shopify** where applicable.
- Contributed to the **Leave Management** module allowing employees to apply for leave, view status, and track team hierarchy.
- Developed a **Project Milestone** feature enabling employees to view ongoing projects and progress updates.
- Built a **Device Management** module to track company-assigned devices.

- Implemented a secure **Email and Password Management** system with automated reminders for password updates every 6 months.
- Ensured smooth user experience by optimizing backend logic and maintaining clean, reusable code.

## Internship

### Full Stack Development Intern

PG Tech. Pvt. Ltd Sec-34A, Chandigarh 2023

- Completed a 6-month internship focused on full stack development using **React.js** for frontend and **Node.js** with **Express.js** for backend.
- Built several real-world projects, including admin dashboards, data-driven applications, and interactive UIs.
- Gained hands-on experience in **RESTful API** development, **MongoDB** integration, and dynamic form handling.
- Worked in a collaborative environment and participated in code reviews and sprint planning.

### Java Developer Intern

NIELT Jammu 2019

- Developed a **Hotel Billing System** project using **Java**, which automated the process of managing customer billing, room reservations, and payments.
- Gained experience in object-oriented programming (OOP) principles, Java GUI development (Swing/JavaFX), and database connectivity.
- Implemented features such as adding/removing rooms, calculating total bills, and generating reports.
- Utilized **JDBC** for database integration and **MySQL** for managing data storage and retrieval.

## Technical Skills

### Frontend Development:

- **HTML, CSS, JavaScript, jQuery, Bootstrap, AJAX**

### Backend Development:

- **PHP, Laravel, Yii**

### E-commerce Platforms:

- **Shopify, Cs-Cart, Wordpress**

**Version Control:**

- **Git**

**Databases:**

- **MySQL**

**Others:**

- **RESTful APIs, AJAX, API Integrations**

## **Education**

- **Bachelor Of Technology**

Indo Global College of Engineering, Punjab Computer Science & Engineering  
2020-2023

- **Diploma**

Govt. Polytechnic College, Jammu Computer Science & Engineering  
2017-2020

## **Languages Known**

- English
- Hindi
- Dogri
- Punjabi
