SUMMARY

I have completed my Master of Computer Applications (MCA) and further enhanced my skills by undertaking comprehensive full-stack web development training. During this training, I gained practical experience in both frontend and backend technologies. I focused on improving performance, strengthening problem-solving abilities, and delivering projects within deadlines. These experiences have equipped me with strong technical expertise and a disciplined approach, preparing me to contribute effectively to organizational success.

EXPERIENCE

Software Developer

AeboCode Technology

05-2025 – 11-2025

Panchkula, Haryana

- Worked on live projects including a **CRM and Inventory Management System**.
- Contributed to module development, debugging, and performance optimization.
- Collaborated with the development team to design and implement new system features.

Technical Training

CS Infotech
