## SUMMARY

MERN Stack Developer with **1+ year of experience** building and deploying **full-stack web applications** using **MongoDB, Express.js, React.js, and Node.js**. Skilled in **RESTful API development, JWT-based authentication, and responsive React UI design**. Passionate about **clean code, performance optimization, and Git-based collaboration** to deliver reliable and efficient solutions.

## TECHNICAL SKILLS

**Frontend Technologies:** React.js, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit

**Backend Technologies:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, MySQL

**Tools:** VS Code, Swagger, Git, Github

**Cloud & Deployment:** AWS (EC2, S3), Vercel

## EXPERIENCE

Shiwansh Solutions

Feb — Present

- Built a **full-stack job portal application** with **JWT-based authentication, role-based protected dashboards, dynamic job listing and application workflows, prefilled application forms using user profile data, resume upload and validation**, and **secure backend APIs** for user verification and data management, demonstrating strong hands-on ownership of core functionality using a **scalable MERN stack architecture**.
- Collaborated closely with team members to **design frontend components, integrate RESTful APIs, debug production issues**, and **optimize application performance**, ensuring a smooth user experience and reliable feature delivery across the **full development lifecycle**.

## PROJECTS

### Employee Management System [Link](#)

- Architected a **full-stack Employee Management System** using **MERN stack (MongoDB, Express.js, React.js, Node.js)** with **JWT-based authentication** and **Role-Based Access Control (RBAC)** supporting Admin, HR, and Employee roles.
- Built **RESTful APIs and dynamic React dashboards** for employee profile management, attendance tracking, and interview scheduling.
- Built a **component-based responsive UI using React.js and Redux Toolkit** with lazy loading and memoization, improving **Lighthouse performance score from 58 to 91 (+57%)**.

### Tour & Travel Booking [Link](#)

- Developed a **full-stack Tour & Travel Booking web application** using **MERN stack** with real-time package browsing, **dynamic pricing engine**, and multi-service booking (**Taxi, Bus, Hotel**).
- Developed **scalable RESTful APIs using Node.js and Express.js** supporting **multi-service booking (Taxi, Bus, Hotel)** with secure authentication and real-time package pricing.
- Built a **responsive React.js UI** with **reusable components**, integrated with **MongoDB** using **optimized schemas and indexing** for efficient management of packages, pricing, and booking data.

## EDUCATION

BCA, Kurukshetra University

2022 — 2025

XII, CBSE

2021 — 2022

## CERTIFICATIONS

Software Development – Udemy | MERN Stack Development – Simplilearn | Data Structures and Algorithms
