TECHNICAL EXPERTISE

MERN/PERN Skills

React.js, Next.js, TypeScript, JavaScript (ES6+), Node.js, Express.js, PostgreSQL, Prisma ORM, MongoDB, Mongoose, Redux Toolkit, React Query, Context API, Material UI, Tailwind CSS, HTML5, CSS3, Responsive Web Design, REST APIs, Authentication, Role-Based Access Control (RBAC)

UI & Tools-

MaterialUI, FluentUi, Styled Components, React Hook Form, Axios, Chart.js, Recharts

Testing & Optimization

Jest, React Testing Library, Performance Optimization, SEO Best Practices.

DevOps & Build Tools

Git, GitHub, Vercel, Netlify, Webpack, Babel, Nx Workspace

Development Practices

Agile Methodology, Component-Driven Development, Code Review, Version Control, Test-Driven Development

SUMMARY

MERN Developer with experience building scalable, responsive web applications using React.js, Next.js, and TypeScript. Strong in developing modern, reusable UI components, efficient state management, and clean, maintainable interfaces. Hands-on experience with backend development using Node.js, Express.js, and NestJS, along with database design using PostgreSQL (Prisma ORM) and MongoDB (Mongoose). Solid understanding of JavaScript (ES6+), REST APIs, and end-to-end application development workflows.

PROJECTS & WORK EXPERIENCE

MAY2022-PRESENT

FunctionalDigital (Wiznox Technologies PVT LTD)

Multi-Tenant Lead Management Platform (System & Custom Roles)

- Developed a multi-tenant Next.js-based frontend for gym management with custom branding and tenant-specific configurations.
- Implemented subscription-based modules, dynamic campaign management, and lead tracking for gyms of varying sizes.
- Designed and integrated customizable dynamic forms for memberships, feedback, and onboarding workflows.
- Collaborated closely with backend APIs for real-time analytics, user roles, and automated notifications.
- Tech Stack: Next.js, React.js, TypeScript, Redux Toolkit, MaterialUI, Axios

TrackCC (Wiznox Technologies PVT LTD)

Construction Expense & Contribution Management CRM

- Developed a Next.js-based CRM for builders to manage project expenses, investor contributions, and client relationships.
- Implemented multi-project tracking with real-time budget updates and expense categorization.
- Designed dashboards for financial insights, contribution summaries, and project-wise performance metrics.
- Integrated secure APIs for payment, document management, and communication workflows.
- Tech Stack: Next.js, React.js, TypeScript, Redux Toolkit, MaterialUI, Axios

Empire Marketing (Wiznox Technologies PVT LTD)

Multi-tenant Agent & Service Management Platform

- Built a Next.js-based frontend for managing agents, technicians, and customers across multiple business tenants.
- Integrated real-time APIs for live job tracking, technician status updates, and customer-service interactions.
- Developed role-based dashboards for admins, agents, and technicians with dynamic data visualization.
- Designed reusable and responsive UI components ensuring seamless multi-device performance.
- Tech Stack: Next.js, React.js, TypeScript, Redux Toolkit, FluentUI, Axios

COMPONENT & LIBRARY DEVELOPMENT

- Developed and published private NPM packages and shared component libraries in Next.js for internal use, ensuring consistency, scalability, and faster development cycles.
- Experienced in Building Library modules, versioning, and maintaining reusable UI libraries with Storybook and NX

LANGUAGES

- English (Fluent)
- Hindi
- Punjabi

EDUCATION

- B.E. – Computer Science & Engineering (CSE), Chandigarh University
- 12th – Non-Medical (Science Stream), P.S.E.B Board
- 10th – P.S.E.B Board

MERN Projects :

Hospital Management System (HMS)

- Designed and developed a full-stack Hospital Management CRM with a Next.js frontend and a NestJS backend.
- Built a responsive frontend UI using Next.js and Material UI, including dashboards and forms for admins, doctors, nurses, and staff.
- Developed scalable backend APIs using NestJS following modular architecture with controllers, services, guards, and DTOs.
- Implemented role-based access control (RBAC) and permission handling for different hospital roles.
- Built secure authentication and authorization using JWT-based auth.
- Designed and managed relational database schemas using Prisma ORM with PostgreSQL.
- Integrated frontend dashboards with backend APIs for real-time operational workflows such as patients, appointments, and billing.
- **Tech Stack:** Next.js, TypeScript, Material UI, NestJS, Prisma, PostgreSQL, JWT, REST APIs

Blog & Analytics Backend API

Node.js | Express.js | Nest.js | MongoDB | Mongoose

- Developed RESTful APIs using Node.js and Express.js with MongoDB and Mongoose ODM.
- Designed MongoDB schemas with ObjectId references to model one-to-many relationships (Users and Posts).
- Implemented data retrieval using populate and analytics using MongoDB Aggregation Framework.
- Built aggregation pipelines using \$match, \$lookup, \$group, \$project, \$sort, and \$limit stages.
- Implemented pagination, filtering, and sorting for scalable API responses.
- Structured backend using routes, controllers, models, and middleware following MVC architecture.
- Implemented centralized error handling and optimized queries using indexes and lean queries.
- **Tech Stack:** Node.js | Express.js | Nest.js | MongoDB | Mongoose
