Career Objective

I am a motivated software developer skilled in C#, .NET, web development, and databases. With an MCA degree, I aim to apply my technical skills and problem-solving abilities in a dynamic environment to contribute to organizational growth while enhancing my expertise.

Skills

- **Programming Languages:** C#, TypeScript, Java
- **Databases:** MySQL, SQL Server, MS Access
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap, Angular, ASP.NET, ASP.NET Core, ADO.NET
- **Tools & Utilities:** Visual Studio, VS Code, FileZilla, Microsoft Clarity, Google Analytics

Education

- Master of Computer Application (MCA) - Chandigarh University, Mohali (2022-2024)
- Bachelor of Science (B.Sc) - Chhatrapati Shahu Ji Maharaj University, Kanpur (2019-2022)

Work Experience

Software Developer - Nandyavat Consultancy Services (May 2024 - Present)

- Developed a multi-role management system with 5 dashboards (Admin, Supervisor, Manager, Technical, QAR Quality Assurance & Reporting) using ASP.NET Web Forms, and SQL Server.
- Built and deployed an updated Attendance Management System on the client's local IIS server using ASP.NET.
- Created a static website using HTML, CSS, JavaScript, and Bootstrap, with integrated ASP.NET pages for registration and email submission.
- Used ADO.NET for backend data operations, connecting ASP.NET with MS Access and SQL Server databases.

Personal Project

- **Real-time Chat Application (2025)**- Built a real-time chat app using ASP.NET Core, SignalR, and SQL Server with secure login, signup, and OTP verification. Implemented SignalR for live two-way messaging and managed user data with SQL Server. Designed a responsive UI for smooth cross-device chat experience.
- **AI Wishes Website (2025)**-Created a website using AI Studio and Gemini API that generates images with English wishes and supports wish text generation in multiple languages. The site provides personalized wish messages in different languages.
- **E-commerce Website (2024)**- Developed an E-commerce website using HTML, CSS, JavaScript, Bootstrap, MySQL, and Spring Boot. Designed user-friendly interfaces for browsing products, managing carts, and processing payments, with a reliable backend for seamless data management.

Certifications

- - Developing web applications using ASP.NET Core MVC - Infosys
- - Introduction to Openshift Applications (DO101) - Red Hat Academy
- - HTML and CSS Bootcamp - DevTown
- - Advanced Business Analytics - Coursera
