SUMMARY

Motivated B.Tech Computer Science graduate with hands-on experience in .NET development. Completed a 6-month internship at SourceMash Technologies, working at a developer level on a live enterprise project (Trimax Construction Management System). Skilled in C#, ASP.NET Core, and SQL Server, with a strong interest in backend development and scalable solutions.

WORK EXPERIENCE

FullStack.NET Intern – SourceMash Technologies, Mohali (May 25 – Nov 25)

Trimax Project

- Worked on real-time enterprise applications using ASP.NET Core, C#, and SQL Server.
- Developed backend APIs and handled database operations for live projects.
- Gained hands-on experience with Entity Framework, ASP.NET Core, and Stored Procedures.
- Integrated frontend (Angular) with backend APIs for dynamic data rendering.
- Followed clean coding practices and debugging techniques.

Full Stack .NET Training – CS infotech ,chandigarh (Oct 24 – Mar 2025)

- Completed practical development work using ASP.NET Core MVC, Entity Framework, and SQL Server.
- Developed a Book Shopping System with user authentication, cart, Wishlist, and order tracking.
- Built a National Park API using ADO.NET and SQL Server for CRUD operations.
- Practiced frontend development using HTML, CSS, JavaScript, and Bootstrap.

SKILLS

Technical Skills :-

- **Programming Languages:** C#
- **Web Technologies:** HTML, CSS, TypeScript
- **Frameworks:** .NET (ASP.NET/ASP.NET MVC), .NET Core, Entity Framework
- **Tools:** Visual Studio
- **Operating Systems:** Windows
- **Concepts:** OOPs, Debugging, API Testing
- **Database :** SQL, SSMS

PROJECTS

Trimax-Construction Management System

LiveURL : beta.trimax.datavanced.com

Technologies Used: ASP.NET Core Web API, C#, SQL Server, Stored Procedures, Angular, HTML, CSS, Typescript.

- Trimax is a web-based construction management platform designed to help builders and contractors manage builders, construction jobs, and material order workflows.
- Implemented database operations using SQL Server and Stored Procedures for efficient data processing.
- Worked on Angular frontend to build responsive UI components for dashboards, builder management, and order tracking.
- Implemented CRUD operations for builders, jobs, and order modules.
- Collaborated with the team to debug issues and improve application performance.

Book Shopping System

Technologies Used: ASP.NET Core MVC, C#, Entity Framework, Identity Framework, HTML, CSS, JavaScript, Bootstrap, SQL Server

- **Description:** Designed and developed a web-based Book Shopping System that allows users to browse, search, and purchase books online.
- Implemented secure user authentication and role-based authorization (Admin/User) using ASP.NET Core Identity.
- Developed features such as shopping cart, Wishlist, and order tracking to enhance customer interaction and usability.
- Built a responsive and dynamic user interface using Bootstrap, HTML, CSS, and JavaScript.
- Utilized Entity Framework with SQL Server to manage database interactions and implement efficient CRUD operations for books and orders.
- Optimized application performance through efficient database design and SQL queries.

EDUCATION

Full Stack Dotnet Training:- CS Infotech Chandigarh •March 2025

B.Tech Computer Science Engineering :-Technocrats Institute of Technology Bhopal-2024-81.2 %

Higher Secondary School :-S.P.V. Intercollege, Muzaffarpur •Muzaffarpur-2020-69.8%

High School (CBSE) :-D.A.V Public School Bakhri, Muzaffarpur •Muzaffarpur-2017-70.3%
