PERSONAL PROJECTS

Frank

- Technologies Used: Asp.net Core, MSSQL, LINQ, HTML, Jquery, CSS
- Designed and implemented an **N-tree structure**, optimizing hierarchical data management within the project.

Dunkin' Donuts, Baskin & Robbins, Jimmy John's, Arbys' Canada

- Technologies Used: Asp.Net Web Forms, HTML, Jquery, PostGreSQL Server, Stored Procedure
- Payment Gateway: BenefitPay, FiservePay, Cybersource
- <https://jjcanadaui.buzzparade.com>
- <https://www.dunkinksa.com>

E-commerce Book store website

- Developed an e-commerce website using C# in ASP.NET Core (MVC) following SOLID principles and OOP. Implemented Identity with customized Razor pages, used Entity Framework (Code-First), integrated Stripe for payments and Twilio for SMS/email notifications. Database: MSSQL

National Park

- Built a National Park website using ASP.NET Core Web App and Web API with MSSQL and Entity Framework. Implemented DTOs, data mappers, and JWT for user authentication and authorization.

ACHIEVEMENTS

Recognized as " Employee of the Month " three times – March 2024, July 2024, and February 2025 – for best performance and contributions.
