SUMMARY

Detail-oriented React JS Developer with 2.8 Years of experience in building dynamic, user-friendly web applications. Proficient in modern JavaScript, HTML, CSS, and state management tools like Redux and Zustand. Strong understanding of component-based architecture and responsive design principles. Skilled in collaborating with cross-functional teams to deliver high-quality software solutions. Committed to continuous learning and adapting to new technologies.

SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5
- **Backend:** Firebase, REST APIs, JS SIP
- **UI & Styling:** Material UI, Tailwind CSS, Inline Styling
- **State Management:** Redux Toolkit, Redux, Zustand, Context API
- **Tools:** Git, Bitbucket, Postman, ESLint, Prettier, Trello, Asana, Teams

EDUCATION

Bachelor of Computer Application(BCA), 84% Apr 2022
Hindu Kanya Mahavidyalaya, Guru Nanak Dev University Amritsar, Punjab

Senior secondary, 70% Apr 2019
Hindu Kanya Mahavidyalaya, Guru Nanak Dev University Gurdaspur, Punjab

EXPERIENCE

React JS Executive Oct 2023 - Jan 2026
Capanicus Mohali, Punjab

- **UI/UX Implementation:** Build responsive, interactive user interfaces using HTML, CSS, JavaScript, and React Component.
- **Development:** Create reusable components for scalable, maintainable code.
- **API Integration:** Collaborate with back-end teams to connect RESTful APIs.
- **Testing & Debugging:** Conduct unit tests (Jest) and debug issues efficiently.

Associate Software Engineer Feb 2023 - Sep 2023
Prologic Technologies Pvt Ltd. Mohali, Punjab

- Developed and maintained a key React JS project.
- Review the client ticket on trello and assign to ticket on same platform.
- Using the Material UI and tabular icon with multiple library for UI tasks.

PROJECTS

My Kareers – Job Portal Platform (Live: <https://www.mykareer.com>):-

- Developed a job portal platform that allows companies to post job openings and candidates to search and apply for jobs.
- Built dynamic job listing pages, search filters, and candidate application workflows using React.js and REST APIs.
- Implemented responsive UI components and optimized page rendering for better user experience.
- Integrated backend APIs to manage job postings, candidate profiles, and application tracking.
- Improved UI maintainability by creating reusable React components and modular architecture.

My Country Mobile – Real-Time Communication Platform (Live: <https://www.mycountrymobile.com>):-

- Contributed to a global communication platform used for business voice and video communication.
- Implemented real-time audio and video calling features using WebRTC.
- Built call interfaces, real-time call status indicators, and notification systems.
- Integrated APIs to handle user authentication, call events, and real-time updates.
- Developed responsive UI using React.js, Tailwind CSS, and modern JavaScript.

VA Care – Healthcare Management System:-

- Developed a healthcare platform that connects patients with caregivers based on their medical needs.
- Implemented caregiver assignment logic and appointment scheduling features.
- Built responsive UI dashboards to manage patient data, caregiver details, and appointments.
- Integrated APIs to support real-time updates and patient-caregiver communication

DNM – Healthcare Appointment Platform:-

- Developed a doctor–patient appointment management system to streamline healthcare consultations.
- Implemented modules for appointment booking, patient concern tracking, and doctor scheduling.
- Designed reusable UI components to ensure consistent and scalable frontend architecture.
- Integrated backend APIs for patient records and appointment workflows.
