

ABHISHEK THAKUR

Software Engineer | .NET | ASP.NET Core Web API | Blazor | React
Firozpur, Punjab | +91 7814184229 | ranaabhishek827@gmail.com

PROFESSIONAL EXPERIENCE

CS Soft Solutions (I) Private Limited — Mohali, Punjab

Feb 2024 – Present

Software Engineer

- Develop and maintain scalable backend services and REST APIs using ASP.NET Core Web API and C#, following Clean Architecture and SOLID design principles.
- Implement third-party integrations including ZOHO suite (Subscriptions, Desk, Analytics) and Razorpay payment gateway within .NET Web API projects.
- Write and optimize SQL Server stored procedures, views, and queries for complex data operations and reporting across multiple projects.
- Apply design patterns such as Repository Pattern, Unit of Work, Factory, and Singleton to ensure maintainable and testable codebases.
- Collaborate with cross-functional teams in an Agile environment, participating in code reviews, sprint planning, and technical discussions.

PROJECTS

MAASMember – Member Management System (Blazor PWA)

2024

Tech Stack: ASP.NET Core Web API, Blazor, C#, SQL Server, Entity Framework Core, Repository Pattern, PWA

- Designed and developed a Progressive Web App (PWA) for LCP Park (Washington, USA) to manage park members, site rentals, and activities such as fishing and camping.
- Built RESTful APIs using ASP.NET Core Web API with C# following Repository Pattern and Unit of Work design patterns for a clean, scalable architecture.
- Developed the front-end using Blazor with reusable components and responsive layouts, configured as a Progressive Web App (PWA).
- Implemented Entity Framework Core for ORM-based data access alongside raw SQL stored procedures for performance-critical queries.

Streamefy – Wedding Video Streaming Platform

2024

Tech Stack: ASP.NET Core Web API, C#, React, ZOHO APIs (Subscriptions, Desk, Analytics), Razorpay, SQL Server

- Integrated ZOHO Subscriptions, ZOHO Desk, and ZOHO Analytics into the .NET Web API backend of Streamefy, a platform used by wedding planners and videographers.
- Built and consumed ZOHO REST APIs within ASP.NET Core, handling OAuth 2.0 authentication, webhook events, and data synchronization between ZOHO and the platform database.
- Implemented Razorpay payment gateway for both domestic and international transactions, including subscription billing, refund handling, and payment status webhooks.
- Developed React front-end components and pages to support subscription flows, customer dashboards, and ZOHO-integrated support ticket views.

Power BI Dashboards – Vibrant Foods (UK/EU)

2024

Tech Stack: Power BI, DAX, Data Modeling, SQL Server, Business Analytics

- Designed and developed multiple Power BI dashboards for a UK/EU-based food supply company, enabling stakeholders to monitor sales performance, revenue trends, and KPIs.
- Built data models connecting SQL-based data sources, created DAX measures, and designed interactive reports with drill-through capabilities.

TECHNICAL SKILLS

Languages & Backend: C#, SQL, JavaScript, C, C++, ASP.NET Core Web API, .NET 6/7/8, Entity Framework Core, REST API Design, Middleware

Frontend: Blazor (Server & WebAssembly), React, HTML5, CSS3, Progressive Web Apps (PWA)

Design Patterns: Repository Pattern, Unit of Work, Factory Pattern, Singleton, SOLID Principles, Clean Architecture

Database: SQL Server, Stored Procedures, Views, Query Optimization, Entity Framework Core

Integrations & Tools: ZOHO Suite, Razorpay, OAuth 2.0, Webhooks | Power BI, DAX | Git, Postman, Visual Studio

Analytics & BI: Power BI, DAX, Data Modeling, Google Looker (Basic)

EDUCATION

B.E. Computer Science

2019 – 2023

Shaheed Bhagat Singh State University, Punjab | CGPA: 8.1
